## CAREER SUMMARY

A highly organized and hardworking fresh graduate of Computer Engineering with a clear focus on maintaining efficient and accurate operations. I aim to work diligently with existing staff and improve on the objectives of the company. I believe strongly in working through positive motivation, confident in attaining management's goal and broadening its customer base through professionalism. Eager to contribute to team success through hard work, attention to detail and excellent organization skills. As a fresh graduate of computer engineering, I'm a full stack web developer with a passion for learning new technologies, working with teams to create user-friendly and fully responsive web applications for over two years of experience in web development, including front-end and back-end technologies. Eager to develop skills in a fast-paced environment and contribute to the success of the company.
